Our background is in the aerospace and manufacturing industry which has helped us establish the high quality standards of manufacturing and design that you can expect in all of our products.

BRP (Billet Racing Products LLC) was established in 1994 with a vision of bringing high quality products to the off-road community that enhanced the performance, form and function of the motorcycle. With that vision, hard work and determination we have exceeded our expectations and today BRP is recognized as a major player in todays off-road community. BRP is the choice of champions past and present for the high quality products, expert knowledge and great service that we are known for.

Since our beginning we have been heavily involved with the local So Cal desert and motocross scenes. We have been supporting riders with our complete line of billet parts and accessories and other fine products from companies such as IMS, Spider Grips, Cycra Racing and much more. But; our specialty is in Scotts stabilizer mounting solutions.

BRP is dedicated to the continued efforts of designing and manufacturing qaulity products that will take you to the finish.

See you at the races,
Jim Rios
